

Model: SS-500

5 bay SATA (II or III) / SAS Hot Swap Module (Occupy 3 x 5.25" Drive Bays)

Features

- Turn 3 x 5.25" drive bay to 5 x 3.25" hot swappable hard drive bay
- 5 Bay SATA(I, II or III)/SAS Hot Swap Module
- Steel material, RoHS compliance
- Electromagnetism shield design
- Redundant 4pin molex power connectors
- Ball bearing fan with air duct
- Patent balance handle -- No skew in/out
- LED indicators (for Power, Fan alarm & Reset)
- Power control
- Reset Switch for buzzer alarm
- Support hot swap
- Support all operating systems

-
- Supports RAID 0, 1, 5 functions (RAID card required)

Specification

- Drive Bay: Turn 3 x 5.25" drive bay to 5 x 3.25" hot swappable hard drive bay
- Interface: SATA to SATA; SAS to SAS
- Fan Sensor: Fan failure sensor
- Alarm: Overheating alarm
- Cooling System: One 80mm ball bearing fan with air duct provide excellent cooling air flow
- LEDs: P/S,HDD access,Fan Sensor,Buzzer
- RAID: Supports RAID 0, 1, 5 functions (RAID card required)
- Power Connector: 4 pin Molex power connector x 2
- Data Connector: SATA (I, II or III)/SAS 6G data port x 5
- Dimensions(L x W x H): 8.5 x 5.75 x 5 inch
- Weight: 5 lbs
